

What are the fees?

a) Minimal starter "YourNeeds" Fee Charges

We offer a affordable minimal fee session to enable potential new clients to identify "YourNeeds" with us before deciding any appropriate matched services recommended. Program suitability exploration before any commitment is vital.

b) Nurturing Intervention Service Fees

Nurturing services fees are set according to the level of professional services offered to you, its duration, nature and urgency. Package services (individual or group) are structured for services that can be delivered in innovative standard ways. Courses we run usually have advertised upfront payment registration/course fees to encourage your maximum personal commitment.

Getting Learning Right

THE NURTURING EDUCATION

"Getting Learning Right" embodies our mission of delivering exceptional developmental learning programs to our clients. We achieve this by combining best practices from the fields of psychology, education, social sciences, technology and brain sciences to enable individuals and/or groups to achieve their true potential."

How You Will Benefit ?

We want to help YOU unlock the full potential in you. Your needs will be evaluated and then matched to the appropriate professional services that we offer for maximum effectiveness.

- Assess your true talents and personality to maximize your potential
- Rehab or relearn to overcome your weaknesses
- Get the right mental, social and emotional support to spur personal growth

Presently we run two main basic services:

Specialist Nurturing Services (SNS) provided by our professional associates/affiliates
Support Nurturing Services (sNS) provided in-house or by network partners

- You can get convenient access to our Psychologist & other specialists
- You received professional assessment and evidence-based interventions
- You learn practical theories which guide you to be competent problem solver
- You are empowered and happier from our holistic CARE.

Who Should Use TyNE's Services?

You, children, families, professionals, organizations, etc

We serve for all ages (individual or group) with our life-span developmental service approach.

- a) Development for Children, Kids, Adolescent and Families
- b) Development for Adults
- c) Development for Mid-life and older adults
- d) Remedial or Wellness Program (for All Ages)

Our Wellness Positive Psychology Living (WPPL) program promotes skills for balanced living. We offer Mindfulness Oriented Psychotherapy (MOP) strategies and evidence-based interventions for stress-related conditions.

Why are we different?

We use our proprietary holistic "C.A.R.E" System Approach. You get individualized attention that truly puts you first when you signed up for this CARE plan.

Step (1) Profiling

Individuals and groups are firstly assessed on the aspects of C-ognition, A-ction, R-elation or E-motion for the mapping of the life spaces interaction and environment. This information, when analysed by our professional expertise, will provide the basis for our service recommendations and interventions to our clients.

Step (2) Services Intervention

The major groups of intervention services we then provide are C-ounseling, A-ssessment, R-ehabilitation or E-ducational. You can either choose one-to-one sessions that provide maximum level of confidentiality, or in group settings interventions suited for promoting development or changes.

Step (3) Desired Outcomes

With TyNE's effectively focused psychosocial or educational intervention, our clients can be C-reative, A-ctualised, R-econnected and E-mpowered as the outcomes from our services.
